WHISTLER

*For Immediate Release*

**SCANDINAVE SPA WHISTLER'S STEAMY SETTING AND SPECTACULAR VIEWS  
ENSURES BEST VALENTINE'S DAY EVER**

**WHISTLER, BC CANADA** February 2, 2011 – Couples can connect and enjoy deep relaxation at the Scandinave Spa Whistler for Valentine's Day. Perfect for blossoming relationships or longstanding love-birds, this gorgeous outdoor spa sets a steamy stage for romance on Valentine's day, or any day.

Couples can slip into Scandinave's outdoor baths, the Eucalyptus steam room or the Finnish sauna to take the heat up a couple of notches. If things are getting a little too steamy there is a cold shower, a Nordic waterfall or a cold plunge to cool things down before deep relaxation takes place in Scandinave's gorgeous solariums.

"The relaxation and tranquility of Scandinave Spa Whistler is a unique experience you can share with someone you love," says Annique Aird, General Manager. "Our intimate Duo Swedish massage shows your partner their wellbeing is at the top of your mind."

The Duo Swedish Massage Package includes bath access for two at the price of \$270. Another romantic option is the Escape Package featuring access to the Scandinavian baths, a delicious snack from the health bistro, a stainless steel water bottle, a pair of sandals and comfy bathrobe rental for only \$99 per person. Gift cards are also available in increments of \$50, \$75, \$100 and \$200. Purchase these gifts online now at [www.scandinave.com](http://www.scandinave.com) or by calling 604-935-2424 or 1-888-935-2423.

The Scandinave Spa is spread over three acres and overlooks Whistler's incredible landscape, offering the experience of hydrotherapy in the heart of nature. This year-round activity cleanses the body and skin while improving blood circulation and physical conditioning and producing the effect of increased wellness and intense relaxation. Occurring in three stages, just a few hours are required to fully enjoy the benefits of hydrotherapy. In sequence, the body is first heated in the Eucalyptus steam bath, hot baths or wood burning Finnish sauna. Then, the body is cooled quickly in the Nordic waterfalls, cold baths or shower. Finally, relaxation takes place in the serenity of solariums, terraces or by the outdoor fireplace. And for the ultimate relaxation, combine a Swedish, Thai-Yoga, Deep Tissue, Sports or Hot Stone massage with the baths.

**About Scandinave Spa**

Scandinave Spa is a group specializing in the conceptualization, design and management of hydrotherapy spas. Scandinavian-style spas provide an authentic spa experience in natural and urban environments. The group's portfolio currently includes four spas. One in Mont-Tremblant, PQ, which was recently voted one of top 12 Best eco-spas in the world by Organic Spa Magazine, one urban spa in Old Montreal, PQ, proud recipient of interior design awards, one

franchised spa at Blue Mountain, ON, named one of top 50 spas in America according to Spas of America and now their fourth in Whistler, BC named one of top 100 spas in America by Spas of America and the best spa in Whistler by Pique Newsmagazine.
